7. Hiring Freeze Adversely Impacts Clerical Support (U)

Effective 25 October 1978 the President ordered a restriction on Federal hiring, limiting the acquisition of new personnel to half the number of those separated, both clerical and professional. Due to the higher turnover rate of clerical personnel, the restrictions impact most severely on clerical positions. Managers must be prepared to deal with increasingly severe shortages of clerical support as time goes by. There is no word yet on when this "freeze" might end. (U)
